

Welcome to the Christmas edition of the Big and Small newsletter ! What a year it's been for Big and Small - great viewing figures, a national tour and Longleat event, the iPhone app, an online shop and a partridge in a pear tree...(that last one isn't true, but it is the Christmas edition after all !) Whether you get big presents or small presents, have a great time..

Big and Small App Passes 10,000 Sales Mark

Brilliant news to close the year as the Big and Small iPhone application has now sold over 10,000 copies. The app, which features 12 songs, loads of hilarious quotes and several classic video clips, has consistently stayed in the top 30 of the iTunes Lifestyle chart and garnered very positive comments from the users. Thanks to everybody who has bought a copy, we're delighted to have passed the 10,000 mark and look forward to continued success with the app.

Small Joins the Twitter-arti

More news from the frontiers of new media, as our very own Small has joined Twitter! Follow him @SmallsWisdom for his 'small' pearls of wisdom, like 'I have this great idea! It's called Wake Up Now and Play With Me!'. Small is very glad to have a platform for his comic gems, particularly as Twitter allows him to send small messages to a big audience.

Big and Small's Big Tour 2010

Big and Small came over all rock star this year when they embarked on a nation-wide tour! They visited five different locations across the country during the October half-term and met lots of their young friends along the way. The shopping centres that the events were held at also hosted Big and Small-themed craft workshops and treasure hunts, where pictures of Big and Small were hidden in various shop windows. See below for a couple of pictures taken during the tour.
